

**Presentation Guidelines:**

Each presentation has a duration of 20 minutes:

- a maximum of 15 minutes for the paper
- 5 minutes for questions

The presentation must be made in Microsoft Powerpoint 2003.

All authors are free to choose their template & style for the presentation.

The Powerpoint files must be delivered using a USB-datastick. The authors must report to the chairman at the hall where they will present. This can be found in the programme.

If your presentation is in the timeslot of 9:30-10:30, authors must report before 9:00.

For all other time-slots, authors must report at the hall in the coffee break between sessions.

The chairman will decide the order of presentations and they will be strict on the time per presentation, to make sure every author receives his deserved time.
